

Power Solutions for a *Brighter Future...*

COMPANY PROFILE

ABOUT EVACHEK ENERGY

At **Evachek Energy**, we are committed to shaping a future powered by clean, reliable, and accessible energy. Founded in 2020 by a team of expert engineers in **Lagos, Nigeria**.

We provide customized solar and hybrid energy systems that cater to the unique needs of Nigerian households, businesses and rural communities.

With millions of Nigerians still lacking access to reliable electricity and many more dependent on costly, polluting generators, **Evachek Energy** is focused on delivering sustainable alternatives that enhance productivity and improve the quality of life.

Our Mission

To drive energy independence across Nigeria and Africa by providing customized solar and hybrid energy systems that enhance quality of life, productivity, and rural development

Our Vision

To be the driving force of clean energy innovation in Africa improving productivity, economic growth and quality of life through affordable and intelligent energy solutions.

Power Solutions for a *Brighter Future...*

What Sets us Apart!

Tailored Solutions

Our systems are customized to ensure optimal performance and cost-effectiveness

Local Expertise

Our IoT-enabled systems provide real-time monitoring and diagnostics, meaning you can track and understand your energy needs through your phone

Advanced Technology

We have a deep understanding of the local energy landscape, enabling us to design solutions that are both practical and sustainable.

Community Focused

We are committed to empowering communities by providing access to clean energy, fostering economic growth, and improving quality of life.

Our Services & Solutions

We take a consultative approach assessing client energy needs, site conditions and budgets to deliver tailored solutions. From feasibility studies and installation to after-sales support, we ensure optimal system performance and long-term reliability.

01

Instant Hybrid Solar Kits

Explore our ready-to-use kits

Evalite(for individuals),
Evafam (for families) and
Evabiz (for businesses & large homes).

Includes free installation.

04

02

Custom Residential & Commercial Solutions

Have specific energy needs or Want to go off-grid? We design and install tailored solar and hybrid systems for homes, offices, schools, farms, and more.

05

03

Energy System Auditing & Optimization

If you're unsure what system you need or facing issues with an existing setup, our expert audit provides a clear understanding of your energy usage, diagnoses performance problems and delivers cost-effective recommendations to improve efficiency and reliability.

06

Community

Programs & Objectives

In Collaboration with Seek Pinnacle Foundation,
we brought **solar reading lights** to young pupils at Egbin Kingdom
Primary School to Enable them read in dark hours.
They are the future of the nation.

Visit to Egbin Kingdom Royal Family

Beyond business, we are committed to social impact through our foundation initiatives, which focus on empowering people and communities through access to clean energy, skills development and sustainability education.

Establishment of Solar Power Microgrids and Training Program in Collaboration with Lagos State NYSC

Our goal to build technical capacity for young people through practical NYSC placements and a certified training track.

Community Program Objectives

- Expand access to solar power for underserved communities
- Support education through solar-powered schools and learning centers
- Improve healthcare delivery with solar solutions for clinics and hospitals
- Promote environmental awareness and climate action

A photograph of two men wearing orange and grey safety vests, looking down at a device they are holding. The man on the left has a beard and is looking intently. The man on the right is also looking down. In the background, a third person is partially visible. The scene appears to be indoors, possibly in a workshop or office.

End power outages with
